

## Agreement Regarding Use of Windsor School iPad eReaders

In order for your student to check out an iPad eReader from the Windsor School LMC, this form must be completed and on file acknowledging that parents and students understand and agree to the rules of usage. One form must be on file for each student.

The iPad eReader is the property of Windsor School. If the device is lost, stolen, or damaged, it is your responsibility to notify the Windsor School LMC immediately. Additionally, the device must be returned in the case with its adapter and cord. If it is determined by school officials that the technology device or any component thereof has been damaged through normal everyday use, or wear and tear, the School District will repair or replace the device at no cost to you. However, if the School District determines that the technology device has been lost, stolen, or has become damaged through negligence or misuse, it will be your responsibility to replace and/or repair the device. Furthermore, you and your student agree to follow the Appropriate Use Policy as established in the District handbook. The contents of the Windsor School iPad eReaders may not be altered in anyway or the student will forfeit the privilege to check out a Windsor School iPad eReader in the future.

Please sign below to acknowledge that you have received, read, and understand the terms of this agreement. This signed Agreement must be returned to the Windsor LMC before a Windsor School iPad eReader will be checked out to your student. Windsor School iPad eReaders will be checked out for two weeks with no renewal.
